Compromised VISA & CheckCards

Recently we had a few Check (debit) Cards compromised. What this usually means is that a merchant's database, where you may have used your card, may have been infected by "hackers". Therefore your Check Card number is available for potential fraud purposes. Our process is to delete your card immediately and issue you a new number to prevent your account from fraud transactions. We use this same process for our VISA cards.

We sincerely apologize for the inconvenience. If you have any questions, please contact MMCU at 797-2185.

Congratulations!

Tim Waltman on your retirement as a Moline Police Officer after 30 yrs. of service.
